

Manor College Alcohol and Drug Policy

In accordance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226), Manor College has an official drug-free campus policy. The College complies with the Federal, State and local laws, including those which regulate the possession, use or sale of legal and controlled substances.

Alcoholic beverages are not permitted on campus at any time, regardless of the age of student. Illegal drugs are not permitted on campus at any time.

Controlled substances are permitted on campus only when the individual has a valid medical prescription.

Both on campus and at all Manor College-sponsored activities, this policy prohibits:

- Being intoxicated or under the influence of a controlled substance.
- The possession, consumption, sale or distribution of alcohol.
- The possession, use, sale or manufacture of illegal drugs or drug paraphernalia.
- The unauthorized distribution or sale of prescription drugs.
- The possession of prescription drugs not prescribed to the student.

Indications of the presence of marijuana use such as, but not limited to, the odor of marijuana, lack of cooperation with room search or other obstructions, attempts to mask or eliminate odors during or prior to a search or other behaviors designed to avoid detection are considered violations of this policy.

Students who have a guest on campus are responsible for her/his conduct and for advising the guest of the Manor College Alcohol and Drug policy.

Any drugs or drug paraphernalia found on the Manor College campus will be turned over to the proper authorities and, if deemed appropriate, the person involved will be turned over to the proper authorities. Manor College will not protect students from possible legal consequences.

Manor College is very serious about enforcement of its Alcohol and Drug Policy.

All alcohol and drug violations will result in strict disciplinary sanctions up to and including dismissal from the college. In addition, there are state and federal penalties that may apply.

Alcohol and drug abuse is associated with increased risk of academic failure, violent behaviors, vulnerability to sexual assault, suicide attempt, accidental injury, and death. Alcohol poisoning and drug overdose can be fatal.

Because our concern is the overall well-being of the student, we encourage the student who may be abusing substances to seek free confidential counseling through the Manor College Counseling Center.

Note: As per the provisions of the Family Education Rights to Privacy Act (section 99.31) notification will be made to the parents or legal guardians of any student under the age of 21 who violates the Manor College Alcohol and Drug Policy.
