

A.S. Degree Information Systems and Technology Transfer Track

The Information Systems and Technology Transfer Track curriculum is primarily intended for students who plan to continue their studies working toward a baccalaureate degree in an area of Information Systems or Technology. The program will prepare students for entry level positions as junior programmers, network administrators, entry-level database administrators or programmers, or help desk support staff.

The student must maintain a 2.0 (C) grade point average in all Business Administration courses, and must attain a grade of “C” or better in all Information Systems and Technology (including BA or IST elective) courses. Any student with a final grade of “D” or “F” in a Information Systems and Technology (or BA or IST elective) course will be required to repeat that course. This program is accredited by the Accreditation Council of Business Schools and Programs, a leading specialized accreditation association that recognizes high quality business programs around the world.
