The pre-occupational therapy program at Manor College allows the student to complete the first two years of the necessary coursework required transfer to a four year college to complete a bachelor’s degree. The program provides the foundation in the sciences and liberal arts required for the student to develop interpersonal, critical thinking, and problem solving skills necessary for success in the occupational therapy field. Students will then have the credentials necessary to transfer to a Master’s program in occupational therapy.

WHY YOU SHOULD CHOOSE MANOR

Manor College provides small laboratory sciences classes and personalized advising. Manor College has a variety of articulation or dual enrollment agreements making the transfer process seamless. Manor College also provides opportunities for observation placement where students spend 80 hours for skills observation and limited hands on experience.

AFFORDABILITY

At Manor College 96% of students receive financial aid. Manor is committed to making our personalized education experience possible for all students, both academically and financially. Manor offers competitive tuition, financial aid options such as merit-based scholarships and athletic scholarships (for eligible sports). You’ll find Manor is an affordable place to start your education!

CAREER OPPORTUNITIES

Occupational therapists treat injured, ill, or disabled patients through the use of everyday activities. They help patients develop, recover, and improve the skills needed for daily living. Occupational therapists work in private offices, hospitals, schools, long term care facilities, and home health care.

ADMISSIONS REQUIREMENTS

Manor continually reviews and accepts applications, making it easy to become part of our community. In addition to the general admissions criteria for Manor College, students admitted to the Allied Health Transfer Programs must have successfully completed:

- 1 yr. of biology with lab and 1 yr. of chemistry with lab at the high school level with grades of C or better
- At least 2 yrs. of high school level math including Algebra or 1 college level algebra course with grades of C or better
- A minimum high school GPA of 2.7 and a combined SAT score (critical reading plus mathematics) of 750 or better.

TIP: Apply sooner than later! With our rolling admissions policy, we process applications throughout the year in the order received. This means more certainty in your future, as you’ll receive an admissions decision within two weeks of completing all procedures.

You’ll also be further along in the enrollment process, which improves your chances for scholarships and financial aid and for getting your first selections for class times and professors.
