LIBERAL STUDIES CONCENTRATION: ENTREPRENEURSHIP

PROGRAM DESCRIPTION

Entrepreneurship spans all stages of business development, including legal issues, funding and finance, marketing and business management, and will provide you with the core knowledge necessary to realize your entrepreneurial vision. Courses are taught by working professionals with many years of business experience. Utilizing our small interpersonal classroom setting, students are able to connect with their professors and peers, developing business and networking relationships early in their professional careers. This concentration prepares students to obtain a workforce certificate that will take their ideas and passion and turn them into a viable business.
