

MANOR
COLLEGE

We revere You who are.

We thank You for all the gifts You have given us: our families, our friends, Manor College and everyone we know and love in our community. Keep us, and our world, healthy and free from sickness and anxiety. Help us to make decisions that are healthy, help us to study, help us to work, help us to be present for those who need us. As the world turns, any of us might find ourselves with challenges of this sort or any other. Help us to use our experiences as a way to give a gift to others, so that if they should encounter something similar, they know we are with them, and that You are with them.

Amen
